FOUNDERS SUMMARY .................................................................................................................... 10
ION Medical Safety

ION Medical Safety was founded in 2011 and is located in Las Vegas, Nevada and operates as a 501(c)(3) charitable non-profit organization. It is developing the world's first learning healthcare system the PRECISE Surgical System™ and ION Life application. Designed with advanced technologies it will revolutionize surgery by preventing medical errors and saving lives. It also owns and operates the PRECISE TECH Corporation, formed to implement its products and services.

PRECISE TECH Corporation

The PRECISE TECH Corporation is a for profit public benefits corporation and has an exclusive license to offer the PRECISE Surgical System™ and ION Life application to surgical facilities at Zero Cost. Each custom system implementation will include trainings and certifications, clinical module franchising and medical malpractice insurance offerings generating significant revenue.

PRECISE Surgical System

Medical Errors are the 3rd leading cause of death in the U.S. To address this challenge, we are developing the PRECISE Surgical System™. We enhance the diagnosis, preop, surgery, postop and research surgical processes. Our system is developed with advanced technologies including augmented and virtual reality, biometrics, blockchain, internet of medical things (IoMT), robotics, voice recognition and wearables.

The PRECISE Surgical System will revolutionize surgery by:

- Improving Patient Outcomes
- Learning Healthcare Research
- Developing Surgical Best Practices
- Preventing Medical Errors
- Saving Lives
- Advancing Medical Science

Delivered to Healthcare Providers at ZERO Cost
Eliminating Financial Adoption and Lowering Healthcare Costs
ION Life Application

The ION Life Application is a comprehensive personal learning healthcare system designed to optimize your health. It optimizes health and wellness and supports prevention of Chronic Diseases. To minimize the impact of surgery, we’ve integrated ION Life with the PRECISE Surgical System™. It utilizes advanced technologies to enable researchers, providers and consumers to promote and increase population health.

Pediatric Medical Errors

Parents with infants or school age children recognize the importance and responsibility in making sure their child is provided with adequate medical care. In regard to surgery, the risks associated with any procedure can be frightening for the parent.

Many variables can contribute to things going wrong, but surgical errors are often preventable. Surgical errors can lead to severe and sometimes permanent conditions. These can change the course of your child’s life forever and cause emotional damage for your entire family.

Surgical errors that can result in harm to a child include:

- Initiating an unnecessary surgery
- Failing to perform a necessary surgery
- Delaying a surgical procedure
- Failure to obtain informed consent
- Failing to conduct a thorough patient history
- Anesthesia errors
- Medication errors
- Using an unsanitized operating room or instruments
- Failing to monitor the patient appropriately
- Performing a surgery on an incorrect body part
- Leaving a foreign object inside a patient

These surgical errors can lead to irreversible damage to a child. With so many variables to manage in pediatric surgeries it is clear how misdiagnosis, delayed diagnosis and failure to diagnose a child’s medical condition exists. The risks in performing surgery are just too great to not have a system of prevention, transparency and accountability. For pediatric surgery, the PRECISE Surgical System™ will mitigate these risks.
Medical Error Facts

Pediatric Surgeon mistakenly places clip across premature infant's airway causing the baby's lung to collapse

$8 million wrongful death settlement awarded to five-month-old child who suffered severe brain damage while being administered anesthesia during surgery

Complications of Surgical Errors in Children Include:

- Physical Disfigurement
- Paralysis
- Nerve Damage
- Brain Injury
- Spinal Cord Injury
- Organ Damage
- Heart Failure
- Stroke
- Cognitive Impairments
- Wrongful Death
Royalty Pools Program

Royalty pools are a way for a founder to contribute to our vision and mission as an independent contractor and earn non-qualified stock options for performing work by providing us ONE annual (founder) referral. Non-qualified stock options are issued by the PRECISE TECH Corporation. There is a total of 1,450,000 Founders Circle Royalty Pool positions. Each position is cumulative and earns increasing non-qualified stock options for each founder. Participation requires a monthly donation in one of the following four different Royalty Pools:

- Silver $ 1.00
- Gold $ 3.00
- Platinum $ 5.00
- Diamond $ 10.00

For each different pool there are five years (2021-2025) offering founders the opportunity to earn and grow stock options. Each founder can start or stop any Royalty Pool at any time. (See active and inactive accounts). Non-qualified stock options will be reserved for each founder participating in the Royalty Pool.

Each Royalty Pool will be listed on the investment cap table for the PRECISE TECH Corporation as its own unique entity. This will include Silver, Gold, Platinum and Diamond by year for a total of 20 different Royalty Pools. Management reserves the right to change, start, end or suspend any Royalty Pool at any time and for any reason.

Benefits

All Founders will benefit by receiving a monthly tax-deductible donation. For helping us with ONE annual (founder) referral each founder will receive non-qualified stock options in the PRECISE TECH Corporation.

Referrals

Each Founder independent contractor is required to do work in order to earn stock options in the PRECISE TECH Corporation. To support our vision and mission each founder will provide ONE annual (founder) referral that will join and participate in one of the different Royalty Pools. The ONE annual (founder) referral is required for the founder to activate their account and for earning non-qualified stock options in the PRECISE TECH Corporation.
Active Accounts

To activate your account and earn stock options you have to initiate ONE annual (founder) referral that will join and participate in one of the different Royalty Pools.

Royalty Pool non-qualified stock options will remain suspended until the founder activates their account.

Founders are expected to be consistent in their monthly Royalty Pool donation participation and their ONE annual (founder) referral.

Inactive Accounts

To inactivate your account just cancel your monthly Royalty Pool donation. Inactive accounts do not earn non-qualified stock options in the PRECISE TECH Corporation.

If you stop participation and want to reactivate your account you will have to provide TWO annual (founders) referrals that will join and participate in one of the different Royalty Pools.

For months you have not paid a Royalty Pool donation you can retrieve these months by paying TEN (10X) the Royalty Pool donation per month to receive the non-qualified stock options.

Account reactivation must be completed before the end of the calendar year that the inactivation occurs. If the reactivation is not performed before the end of the calendar year that the inactivation occurred, all non-qualified stock options will be returned to the PRECISE TECH Corporation for redistribution.

Any account that is inactive for 12 consecutive months will be permanently removed from the Royalty Pool and all earned non-qualified stock options will be forfeited and returned to the PRECISE TECH Corporation for redistribution.

Non-Qualified Stock Options

Founders Circle Independent Contractors will receive non-qualified stock options for supporting us in fulfilling vision and mission. Non-qualified stock options cost $.50 each and can only be earned through the Founders Circle Royalty Pool program.
Non-qualified stock options will have a strike price of $1.00 and an expiration date 10 years after the initial public offering (IPO) or Merger and Acquisition (M&A). To learn more about non-qualified stock options visit: https://www.bankrate.com/glossary/n/non-qualified-stock-options/

### Vesting Schedule

All Founder Non-Qualified Stock Options vest 100% upon Initial Public Offering (IPO) or Merger and Acquisition (M&A) event.

### Royalty Pools

Each Royalty Pool provides a unique opportunity for founders to earn non-qualified stock options for supporting our vision and mission.
